the present practice may continue.

With the exception of four or five officers given in the statement forwarded by the Comptroller P.W.D. Ry Branch there can be no difficulty in explaining the term "jurisdiction" as used in art 573 M.S.R. The nature of the duties of the officers coming under the exception extends to the whole State. (The Permanent monthly TA given to Mr Rice having been recently ordered to be stopped, his case may be left out of account) The rule of exchanging the allowances contained in art 573 M.S.R. does not really apply to the cases of the Sanitary Engineer, the Executive Engineer in charge of the Water Supply & Stores Dn, & the two officers on Spl duty for their journeys & halts within the State. The Chief Engineer also notes the days on which under these rules of the officers have exchanged their permanent TA during the calendar year 1907 is of opinion that ~~their~~ ~~drawing~~ ~~drawn~~ permanent ~~monthly allowance~~

The cases of 16 officers are mentioned in the Statement sent by the Comptr. Of these, the allowance given to one officer on Rice has since been stopped.

Seven officers nos 2, 3, 4, 9, 10, 11 & 12 are engaged on works which are at particular ~~places~~ places and these officers have therefore no travelling or touring work in connexion with their works. Occasions for these officers to make tours and exchange permanent monthly Cs for ordinary Cs should be very rare as their work is practically confined to particular places. Why permanent monthly Cs should be given to these officers is by no means clear. The works they supervise are at the Head Qrs ~~of~~ where they are stationed and as their duties do not necessitate any travelling there is no claim for any kind of Cs under the rules. The case of these officers does not come under art 558 para 2

The existing regulations not having provided for any rates of allowance being passed to Officers & Subordinates of this Department employed on works which do not entail travelling to a distance that would entitle them to the ordinary rates of daily batta &c, Col. Bowen recommended that fixed rates be passed to such Offrs & Subordinates & the same was sanctioned by Govt. (Please see original papers herewith put up). As these special rates of allowances were designated "fixed travelling allowance", they were sanctionable either under Article 570 (in which case it was exchangeable for other allowances under Article 573) or under Article 597 as permanent Conveyance or horse allowance. Generally this fixed allowance was sanctioned

under Article 570, so that officers might exchange it for other allowances whenever they travelled beyond their jurisdiction under the authority of the Chief Engineer. The above rates of fixed allowance are included in Appendix No 4 of the M.S.R. From a note added to Article 570 in February 1908, it will be seen that the fixed allowances above referred to have been directed to be treated as permanent monthly travelling allowances. The addition of this note does not prevent officers from exchanging the permanent or fixed allowance for ordinary allowances whenever they go beyond their jurisdiction. The extent of jurisdiction for the purpose of exchange of permanent allowance was taken to be the limits of 5 miles radius from Head Quarters or the works on which the Officers were employed and it is not therefore clear why the question of jurisdiction was raised by the Comptroller.

There has so far been no difficulty in applying the rules as they stand.

II The Comptroller thinks that because Officers nos. 2.3.4.9 &c. (such as Messrs Raghavalu Naidu, Madhava Rao &c.) have little or no occasion to tour outside their jurisdiction in connection with their works, no permanent monthly travelling allowance need be passed to them. I am afraid I cannot agree. As mentioned in Col. Bowen's note of 1897 & the Govt. Order thereon (put up) referred to above, it is because these Offrs who are obliged to keep horses & carts for the performance of their usual duties besides keeping up their Camp equipment are unable to recoup themselves in any other way that they are given fixed allowances. Moreover Mr. Raghavalu Naidu goes often to Seringapatam & Tumkur for which he must needs exchange his permanent allowance for ordinary allowances. They do come under Art. 558 of Mysore Service Regulations.

Mr Chakravarthi Ayyar's is that in the case of the 7 Officers (Nos. 2, 3, 4, 9, 10, 11 & 12 in the list), permanent allowances may be altogether stopped, & whenever they make journeys on tour they may be given ordinary travelling allowances. How can they be expected to maintain a Conveyance (which is very necessary for the efficient performance of their works) if they are not granted allowance of some kind or other?

The maintenance of Camp equipage to every executive Officer is absolutely necessary & it is to meet such Cases that sanction of Govt was obtained to the fixed rates of allowances under reference.

The Comptroller says that "the jurisdiction of certain Officers being confined to the side of the works they are asked to supervise, there is no reason why it should be understood as extending over a radius of 5 miles". I cannot concur with his opinion. Supervision of a solitary work does not usually mean sitting

NOTE—Contn sheet.

the whole time at site of work.
On the contrary it usually happens that the Officer has to go about frequently in different directions to inspect quarries, brick kilns, quantities of materials prepared, the places where materials for works are obtained &c & that is the reason why a radius of 5 miles is fixed for such journeys. These are all touring Officers when occasions arise to go out longer distances and they are to maintain the usual Camp equipage, whether they are in charge of one work or more than one.
The way in which jurisdiction is sought to be determined in respect of Officers. 1, 5 & 7 cannot be accepted since when jurisdiction is defined generally as applicable to Officers drawing permanent allowances, it should be held applicable to all coming under that class and not to a selected few. Hence it will not, in my opinion, be advisable to give the term a variable definition as proposed by Mr. Krishna Rao.

V All the officers attached to Manikanee work are granted permanent monthly allowances, because it is regarded as a special work entailing particularly arduous duties. In Division of labour, certain works in Charge of a particular Office are comprised under a Sub Division Charge, but this is no Sub Division in the sense in which it is ordinarily used. Their duties require Constant travelling within 5 miles radius.

VI The fixed travelling allowances were sanctioned by Govt. only to officers of the P.W. Dept. under the peculiar circumstances represented by the former Chief Engineer & they were not intended to be extended to Other Depts of the State, as is evident from the Govt. order passed on the recommendations submitted by Col. Bowen in this behalf. The object of adding note to Art: 570, requiring the fixed allowances to be treated as permanent, monthly travelling allowances (as distinguished from

NOTE—Contn sheet.

Conveyance allowance), is not in the first place apparent. Nor do I think that this additional note has in any way affected the existing practice under which permanent monthly allowances are exchanged for Ordinary travelling allowances under the rules. I am decidedly of opinion that if any changes are now introduced they are likely to cause not only confusion but also discontent among the R.W. officers, to meet whose actual requirements the "fixed" allowances were sanctioned by Govt after much deliberation. I am of opinion

(1) that no change is called for in the general ruling as from past experience the ruling has been found to work smoothly; and Govt have been put to any unnecessary expense on this account if the nature of the inspection work expected of officers in receipt of such allowances is duly considered. (2) That since R.W. officers have to maintain their conveyance for efficient discharge of their duties even if they are employed on a solitary work. No exception should be made in their case.

The proposals made in note of 11-9-8 supra were the following:—

(1) On this point there is much force in what Captain Dawes says about Sub Asst. Engineers on Rs 100/- & Rs 150/- Rs permanent monthly allowances are not given to offrs of the rank of Asst Engineer & of higher ranks in British India and the necessity of giving such allowances here is not understood. All offrs are expected to maintain out of their pay such conveyances as may be required for work at or near Head Quarters for which no t.a. is admissible and it is invidious to make an exception in favour of the higher ranks of Engineer offrs who are so well paid as offrs of similar status in other Depts. While therefore agreeing to retain the allowance for Sub Asst Engrs. I am of opinion that the allce of higher Engr offrs may be abolished.

(2) I consider this as reasonable to define jurisdiction as a circle of five miles radius with the work as centre is to make Art 572 inapplicable to the

1) The withdrawal from Seven Officers (2, 3, 4, 9, 10, 11 & 12) of the permanent monthly allces now given to them — & the grant to them of t.a. under the ordinary rules whenever they make tours.

2) The defining of jurisdiction as meaning the taluk or taluks in which there work lies in the Case of 3 Officers (1, 5 & 7)

3) The defining of jurisdiction in the Case of the Officer no 8, as meaning the Division of which he is in charge.

4) The application of art 572 to the Case of four Offices (13 to 16) to regulate questions of jurisdiction & exchange of permanent monthly t.a. for ordinary t.a.

I think portion marked A in note refers to proposal (2)

Capt. Dawes's

The P.W. Secy has made no remarks on proposals nos 3 + 4 & it is therefore to be presumed that he has no objection to them.

He does not accept the other two proposals & his objections may be examined. They are the following:—

1) "The existing regulations not having provided for any rates of allce being passed to officers employed on works which do not entail travelling to a distance that would entitle them to the ordinary rates of daily batta &c, fixed rates were sanctioned to them".

2) As these officers are obliged to keep horses & carts for the performance of their usual duties — besides keeping up their Camp Equipment & are unable to recoup themselves in any other way, they are given fixed

officers concerned & to give them the benefit of Art 573 in all cases. The rates of permanent travelling allowance are fixed at a higher level than those of conveyance allowance and from the list of permanent travelling allces in App 4 to S.R. it is quite clear that all offrs drawing such allowances at a rate exceeding Rs 30 a month have wide jurisdictions. The principle is that when govt sanctions an allowance on the scale of permanent travelling allowance it is not fair that ordinary t.a. should be drawn in lieu of it whenever the offrs goes beyond five miles.

(3) If Captain Dawes's remarks at A in his note has reference to offrs 8 it is understood why the subdivision cannot be treated as jurisdiction. In that case offrs (8) can come under the same rate as proposed for 1, 5 + 7

allowances"

3) "Mr Rajaswamy Naidu goes often to Vizagapatam & Tuni where he must needs exchange his permanent allce for ordinary allce".

(4) Officers who have jurisdiction throughout the province without doubt must of course come under S.7.2 M.S.R.

No confusion need be apprehended in the working of the rule discussed in para 2 above. If the jurisdiction of each officer employed in works is clearly defined, the controlling officer will always know for which journeys exchange is admissible & the audit offr also will be in a position to exercise check. Confusion can only arise for want of definite orders.

4) "It would not be advisable to give the term jurisdiction a variable definition"

5) "Officers attached more than one work are granted permanent monthly allowances because this is regarded as a special work entailing particularly arduous duties"

No (1) This objection is not understood. If any Officer has no touring work to do, there is no need to give him TA in any form.

No (2) Yes only when an Officer's duties involve an extraordinary amount of moving about within a limited area that can

No. 5827/E 1/1 dated Bangalore. 14.. March 1908.

Sir,

With reference to para 2 of Government Proceedings No.Fl.2911-2/S&A-394-06-8 dated 14th December 07 directing that the fixed allowances drawn by Engineer Officers of the P.W.Department should be treated as - permanent monthly travelling allowance under Article 570 of the Mysore Service Regulations , I have the honor to request that you will be so good as to inform me in what sense the term "Jurisdiction" used in Article 573 should be understood in applying the latter article, when the Engineer officers mentioned in the enclosed statement claim other allowances admissible under the Travelling allowance Regulations in exchange for their permanent allowances.

2. The prevailing practice, in the matter of exchange, has been to permit these officers whenever they travel on duty beyond a radius of 5 miles from their head quarters or perform a road journey of over 20 miles, to draw the - usual daily allowances and mileage, forfeiting their permanent monthly allowances for the period. As regards the nature of the permanent allowances drawn by these - officers I beg to invite attention to Government Proceedings

No.

No. 15-20/102-7 dated 6th January 1899. Having regard to the circumstances under which allowances are admissible under this order, the extent of Jurisdiction for the purpose of exchange have hitherto been taken to be the limit of 5 miles radius from the officers' head quarters. And this interpretation of the order has been approved of by Government in their Order No.P & A.236-7 dated 11th August 1903.

3. It will be seen from the accompanying statement that the jurisdiction of almost all the officers who are in receipt of permanent monthly allowances is very limited in area and is practically confined to the site of the special works they supervise, excepting in the case of the Officers employed in the Sanitary and Water Supply & Stores Divisions and on Special duty whose jurisdiction extends throughout the Province. In the case of Mr H. D. Rice his circle of duty extends throughout Chitaldrug District, Under G.O. of 14-12-07 such of these officers as are attached to works can exchange their permanent allowance whenever they travel beyond a radius of 5 miles from their head quarters, while others whose jurisdiction is provincial cannot have the benefit of the rule of exchange for any journey or halt within the Province.

4. In these circumstances I beg definite orders of Government as to how "Jurisdiction" should be understood may kindly be communicated to me.

about 5 to 7 days on an average a month during the past year: Now that both the drainage and water works projects at Fern Hill have been practically completed, these officers are not likely to be even less away from Head Quarters than before, in future. In these circumstances, I am of opinion that the few days they may be absent from Head Quarters should not debar them from drawing the permanent monthly allowances as now for the rest of the month, and from exchanging them for ordinary ones allowances, when they happen to go out.

As regards Mr. Desikacharya, he has so far completed the out-door work, but has to maintain his camp equipage to go out at any time it may be necessary for him to visit any tanks.

Copy of No.3180 dated 9th May 1908 from the Chief Engineer of Mysore to the Comptroller, P. W. and Railway Branch.

Has the honor to inform the Comptroller, that it is brought to notice by the Executive Engineer, Water Supply & Stores Division that travelling allowances other than the permanent monthly allowance claimed by Mr V. Rungasawmy Iyengar and Mr M. G. Rangaiya during the months of January and February last, have been disallowed on the ground that their circle of duty extends over the whole Province and that the permanent monthly travelling allowance granted to them is in lieu of all other allowances. As however the question of Jurisdiction has been submitted for the orders of Government in the General and Revenue Departments, the Comptroller will be good enough to continue to audit as hitherto the travelling allowances of the Engineer officers attached to the Water Supply & Stores Division, Sanitary Division and Special duty, pending the final orders of Government on the subject.

Sir,

I have the honor to bring to your notice, that the Comptroller P.W.A & Ry.Branch has disallowed my travelling allowance for a journey to Bidadi on the 26th March 1908, and the reasons given for doing so is that I draw a monthly allowance of Rs.60/- I have had occasion to visit Kolar, Hiriyur and Robertsonpet last onth and now that the drainage orks at Robertsonpet have been started, it will entail frequent visits to that place. If I am not allowed Travelling allowance for these journeys, I beg to state that it is not possible for me to undertake such journeys in future, and consequently I shall not be able to do any work.
